

Atomic Energy Society of Japan

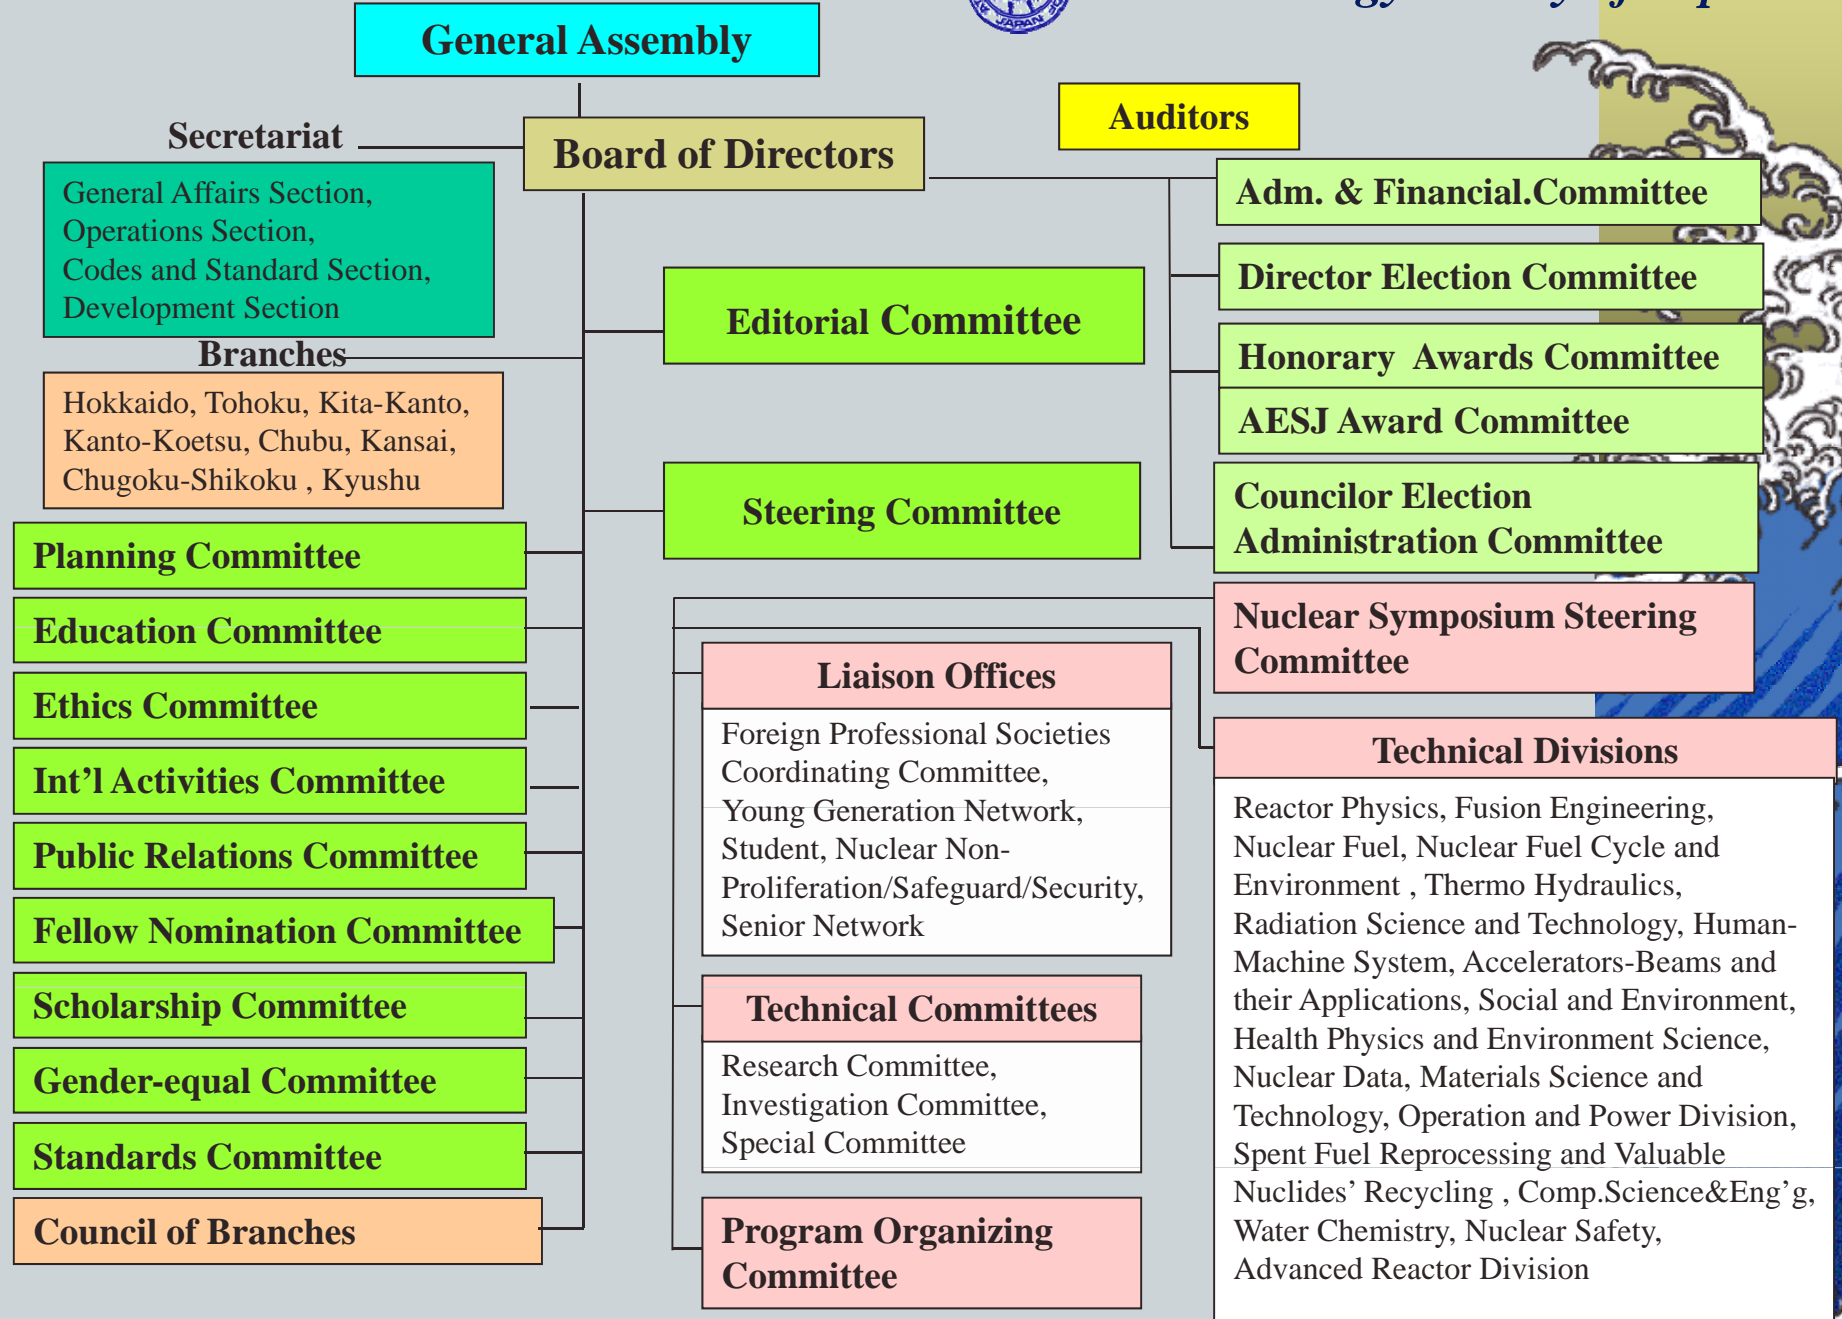

Organization and Activities

Address 3-7, Shimbashi 2-chome, Minato-ku, Tokyo 105-0004, Japan
Telephone +81-3-3508-1261 **Facsimile** +81-3-3581-6128
E-mail atom@aesj.or.jp **Home Page** <http://www.aesj.or.jp/>

Atomic Energy Society of Japan

Outline of AESJ

Mission :

Promotion of research and development in peaceful use of nuclear energy for contribution to human society

Foundation :

February, 1959

Branches :

The head office is in Tokyo, with active 8 branches. (see previous page)

Membership :

Honorary Member : 15 Regular Member : 7,098 Student Member : 501
Supporting Member firms : 254 (as of March, 2010)

Annual membership Fee :

Regular Member : 10,000yen Student Member : 5,000yen

Board of Directors :

President : 1, Vice Presidents : 3, Directors : 14, Auditors : 2

Technical Divisions :

The number of technical divisions is 18. (see previous page)

Regular members and Student members can register for 1 division free.

Office Staff : 22

Activities of AESJ

Publications :

1. Journal of the Atomic Energy Society of Japan, since 1959

(in Japanese, Monthly) :

provides information across a variety of nuclear engineering and regularly prepares special issues, expositions, seminars that focus on specific topics of current interest.

2. Transactions of the Atomic Energy Society of Japan, since 2002.

(in Japanese, Quarterly) :

publishes original research papers and technical reports screened by editors. It has earned an esteemed reputation throughout Japan's nuclear engineering community.

3. Journal of Nuclear Science and Technology, since 1964

(in English, Monthly) :

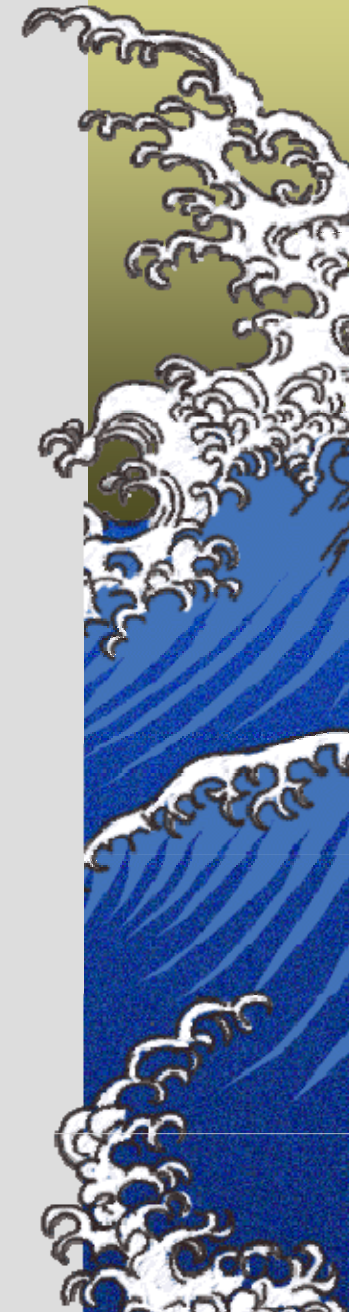

publishes papers screened by editors. It is distributed to many foreign countries, and lots of papers by the overseas authors are also carried.

4. On Line Journals (<http://www.aesj.or.jp/index-e.html>) :

opens "Journal of Nuclear Science and Technology" and "Transactions of the Atomic Energy Society of Japan" to the public with full text on the Web site.

5. Other Publications

The society has published many other publications such as technical reports, data books and proceedings of conferences and seminars.

Meetings :

1. AESJ Annual Meeting (Spring)
2. AESJ Fall Meeting (Autumn)
3. Summer Seminars
4. Nuclear Symposium on Atomic Energy

AESJ Awards :

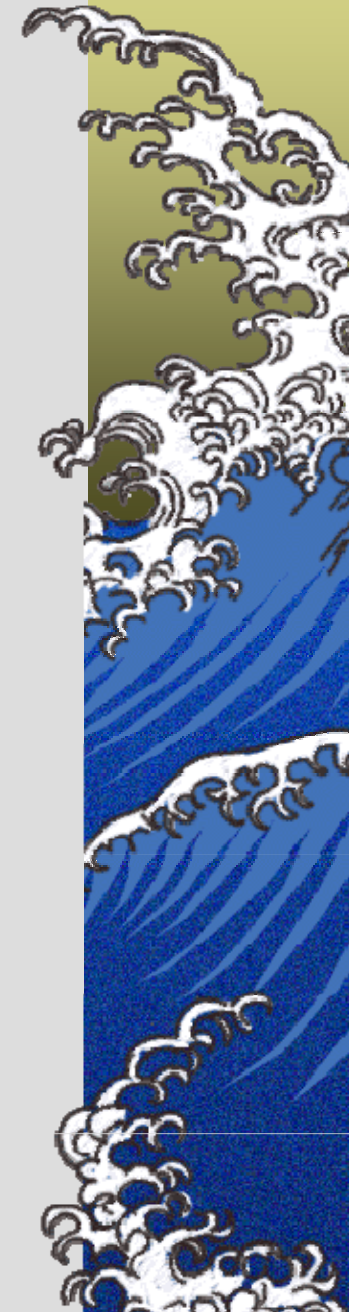

Several category awards are presented every year since 1969

Research Committees :

Fifteen Research Committees, such as “Advanced Fuel Technology and Application” and so forth promote studies and spread information by organizing surveys, studies and data collection, as well as by holding discussion meetings on specific fields.

Nuclear Standards :

The Standards Committee of AESJ prepares Nuclear Standards, which are developed on the basis of latest knowledge and experiences through the process realizing fairness, impartiality and transparency.

International Activities :

The society cooperate and support to international conventions and other events related to atomic energy. There are two International Student Exchange Programs, US / Europe – Japan and Korea – Japan. The AESJ has signed an Agreement of Cooperation with nine overseas nuclear societies.

Public Relations :

The society is making a great deal effort into public information and outreach activities.
