

資料紹介 75Kiev Conf. 提出論文のリスト (英訳)

前号の資料リストに INDC (CCP) - 99 (G), Neutron Physics (Proceedings of 3rd All-Union Conference on Neutron Physics, Kiev, 9 - 13 June 1975) Part 1 ~ Part 6 を挙げておいたが、この会議に提出された論文はかなりの数にのぼるので、タイトルと著者名だけでも紹介する必要性を感じた。この中には、中性子物理に関する興味ある論文が数多く含まれており、また、その中の中性子データは CINDA 76 / 77 に 75 Kiev としてすでに entry されている。

原文の殆んどはロシア語で書かれているので、利用の便を考えタイトルを英訳して示すことにした。急な作業で行ったために多少の誤りがあるかも知れないが、できるだけ原文に忠実な翻訳を期したつもりである。ただ意味の通じにくいところは若干意訳せざるをえなかった。また、論文内容を吟味せずタイトルだけを直訳したため、内容が判然としないものもいくつかあったが、大過はないものと思う。フランス語のものも英訳してある。

以下に示すリストで、タイトルの頭に E または F を付した論文は、原文がそれぞれ英語、フランス語で書かれているもので、他はすべてロシア語である。

なお、Part 1 と Part 5 の英訳は、大阪大学、大学院生の菰田成一氏 (現在、特別研究生として原研に滞在中) によるものであることを付記し、感謝する。

(事務局編集係)

Proceedings of 3rd All-Union Conference on Neutron Physics

(Kiev, 9-13 June 1975)

Part 1

A Preliminary Remark by Chairmam of Committee of AN USSR Academy M.V. Pasechnik	3
General Meeting	
Requirements for Nuclear Data in Reactor Technique M.N. Nikolaev	5
Effects of Neutron Constants on Neutron-Physical Calculation for Fusion Reactor Blanket D.V. Markovskii et al.	29
On Evaluation of Requirements in Nuclear Data for Experimental Studies in Reactor Physics L.N. Yurova et al.	41
Structure of Activities of Nuclear Data Production for Reactor and other Applications L.N. Yusachev et al.	41
Comparative Analysis of Group Constants obtained on the Basis of UKNDL Library and BNAB-70 System Yu.G. Bobkov et al.	53
Determination of Optimum Concentration for Critical Assemblies Yu.G. Bobkov et al	58
Adjustment of Group Constants by Evaluated Integral Experiments and Recent Versions for Evaluated Microscopic Nuclear Data Yu.G. Bobkov et al.	64
Neutron Reactions in Stars N.A. Blasov	69
Section 1. Requirements for Nuclear Data and their Evaluations	
Nuclear Data in Calculations for Source Spectra of Secondary Gamma-Emission in Earth by Action of Neutrons A.A. Birintsev et al.	83
On Correlation of Nucelar Data Errors and Calculation Method in Problem of Reactor Parameter Prediction A.A. Vankov and A.I. Voropaev	88
Planning for a Series of "Pure" Critical Experiments with Heavy Water and Natural Uranium for Purpose of Accurate Reactor Constants P.P. Blagovolin	93
Realization of Generalized Perturbation Theory for Calculation of Neutron Cross Section Efficiencies with respect to Non-linear Reactor Functions in Two-dimentional Geometry O.P. Chukhlova and M.N. Zizin	98

	EKS - Standard System of Programs for Evaluation of Integral Experiments M.N. Zizin	..... 104
	Utilization of Multi group System Constants ANAB for Calculation of Integral Reactor Parameters $\epsilon$ , $\delta^{28}$ , etc., Monte-Carlo Method V.D. Kazaritskii	..... 111
E	Evaluation of Group Inelastic Cross Sections Using a Pulsed Integral Method M.T. Rainbow and A.I.M. Ritchie	..... 116
	An Algorithm and a Program for Preparation of Group Constants for Reactor Computation in SOCRATOR Library System V.E. Kolesov and A.S. Krivtsov	..... 140
	Programic Security of Operation for Mechanical Library of Neutron Nuclear Data System SOCRATOR V.E. Kolesov et al.	..... 145
	Analysis of Neutron Cross Sections in the Resonance Region by Use of Pade-Approximation V.N. Vinogradov et al.	..... 150
	Utilization of Pade-Approximation for Analysis of Function in Sum of Exponents suitable for a Problem of Neutron Physics V.N. Vinogradov et al.	..... 155
	Analysis of Neutron Cross Sections for Isotopes of Nickel and Chromium in Fast Energy Region V.M. Bchkov et al.	..... 160
	Evaluation of Radiative Capture Cross Sections of Au-197 for Fast Neutrons V.N. Vinogradov et al.	..... 165
	Evaluations of Neutron Cross Sections at $v = 2200$ m/sec and Resonance Integrals for Isotopes of $Z = 57 \sim 71$ A.F. Fedorova et al.	..... 169
	Evaluation of Cross Sections for Iron in the Energy Range from 0.025 eV $\sim$ 14 MeV V.M. Bchkov et al.	..... 176
	Cross Sections of Neutron Interaction with Carbon L.V. Chulkov	..... 181
	Application of R-Matrix Formalism for Evaluation of Resonance Cross Sections for Medium-Weight Nuclei V.M. Bchkov et al.	..... 186
E	Neutron Cross Section Evaluation for $^{93}\text{Nb}$ in the Energy Range from 30 keV to 20 MeV D. Hermsdorf et al.	..... 190

F	Evaluation of Coherent Set of $n + {}^{235}\text{U}$ Cross Sections between 3 keV and 20 MeV by means of Nuclear Models J. Jary et al.	..... 216
F	Statistical Model Evaluation of $(n,xn)$ and $(n,xnf)$ Cross Section for Heavy Nuclei J. Jary	..... 239
F	Method for Statistical Model Evaluation of Cross Sections of Capture, Inelastic Scattering and Fission for Heavy Nuclei Between 1 keV and 3 MeV P. Thomet	..... 252
F	Experimental and Theoretical Aspects in Evaluation of Capture Cross Sections for Yttrium between 10 keV and 3 MeV C. Philis et al.	..... 264

Part 2

Section 1. Requirements for Nuclear Data and their Evaluations (continued)

Evaluation of Measured $\alpha(^{235}\text{U})$ in the Energy Range of 0.1 keV $\sim$ 15 MeV G.V. Antsipov and V.A. Konshin .....	3
Evaluation of Nuclear Data for $^{235}\text{U}$ in Region of Unresolved Levels G.V. Antsipov et al .....	15
Evaluation of Neutron Cross Sections for $^{240}\text{Pu}$ in Unresolved Resonance Region G.V. Antsipov et al. ....	21
Evaluation of Neutron Inelastic Scattering Cross Section for $^{235}\text{U}$ G.V. Antsipov et al. ....	28
Evaluation of $^{240}\text{Pu}$ Neutron Cross Sections for Construction of a Full File G.V. Antsipov et al. ....	34
Analysis of Angular Distributions for Neutron Elastic Scattering in $^{235}\text{U}$ E.S. Sukhovintskii et al. ....	38
Evaluation of Nuclear Constants for $^{235}\text{U}$ in Neutron Energy Region of $10^{-4}$ eV $\sim$ 15 MeV V.A. Konishin et al. ....	43
On Requirement for Accuracy of Reproduction of Energy Structures in Neutron Cross Section A.A. Lukyanov .....	48
Measurement on Energy Correlation of Capture Cross Section and Total Cross Section for Intermediate and Fast Neutrons V.V. Filippov et al. ....	53
Measurement of Density Distribution for Neutron Total Cross Section V.V. Filippov et al. ....	57
Calculation of Neutron Cross Section in Unresolved Resonance Region by Monte Carlo Method V.A. Naumov et al. ....	62
Mathematical Study for Problem of Single-Level Analysis of Fission Cross Section in Resonance Neutron Region I.I. Surina .....	67
Double-Differential Scattering Cross Section of Slow Neutrons for Light Water at High Temperature A.G. Novikov et al .....	71
Inelastic Scattering of Slow Neutrons in Beryllium Yu.Yu. Glaekov et al. ....	79

Method for Evaluation of Slow Neutron Double-Differential Scattering Cross Sections for Reactor Moderators Yu.V. Lisichkin and V.A. Parfenov	..... 85
Program in Study <b>ИЯЕ АН БССР</b> for Scattering and Thermalization of Thermal Neutrons	..... 90
Evaluation of Thermal Neutron Scattering in H <sub>2</sub> O-Moderator by Multi-level Model V.G. Gulo and A.P. Semashko	..... 94
Multi-level Model for Thermal Neutron Scattering in Z <sub>x</sub> H <sub>x</sub> -Moderator A.P. Semashko	..... 99
Study of Slow Neutron Scattering for Reactor Materials Iu.V. Lisichkin et al	..... 105
Analysis of Experimental Data for Double-Differential Scattering Cross Sections of Slow Neutron on the basis of Incoherent Approximation Iu.V. Lisichkin and V.A. Parfenov	..... 112
Effect of Uncertainties in the Data for Oscillation Spectra of Moderator Atoms on Calculation of Characteristic Integral of Neutron Scattering and Some Reactor-Physics Functionals V.I. Ionkin et al.	..... 117
Direct Measurement on Multiple Scattering of Slow Neutrons V.A. Parfenov and V.I. Moiseev	..... 123
<b>Section 2. Fundamental Properties of Neutrons</b>	
Optical Potential for Ultracold Neutrons A.V. Stepanov	..... 129
Search for Electric Dipole Moment of Neutrons by Means of Ultracold Neutrons A.I. Egorov et al.	..... 134
Measurements on Spectra of Ultracold Neutrons E.Z. Akhmetov et al.	..... 150
Gas and Frozen Converter-Sources of Ultracold Neutrons E.Z. Akhmetov et al.	..... 155
Some Physical Problems of Ultracold Neutrons A.V. Antonov et al.	..... 161
Storage of Ultracold Neutrons in Copper Vessel L.V. Groshev et al.	..... 166
Propagation of Ultracold Neutrons in Diffusion Approximation G.I. Terehov and V.I. Lenina	..... 178
Apparatus for Extracting Ultracold Neutrons in Reactor SM-2 Iu.Iu. Kosbintsev et al.	..... 183

Apparatus for Holding Ultracold Neutrons in the Big Closed Vessel Iu.Iu. Kosbintsev et al	.....	188
Propagation of Ultracold Neutrons in Cylindrical Neutron Guides Iu.Iu. Kosbintsev et al.	.....	193
Experiments on Logarithmic Neutron Guides in Reactor BBR-M E.M. Korotkikh et al.	.....	200
Experimental Study for Interaction of Very Cold Neutrons in Metals and Gases N.T. Kashukeev et al.	.....	205
A New Measurement on Angular Correlation for Spin-Electron at the Decay of Polarized Neutrons B.G. Erozolimskii et al.	.....	210
Gravitational and Electromagnetic Properties of Neutrons Iu.A. Aleksandrov	.....	218

Part 3

Section 3 General Problems of Neutron Interaction with Nuclei

	Dependence of Excited State Density on Parity A.I. Blokhin and A.B. Ignatyuk	.....	3
	Theoretical Description for Density of Neutron Resonances A.I. Blokhin et al.	.....	8
	Influence of Shell Effect on Magnetic Moment for Excited Nuclei A.I. Blokhin and A.B. Ignatyuk	.....	13
	On Phase Transition Spectra of Transient States of Nuclei A.B. Ignatyuk et al.	.....	18
	Semimicroscopic Description of Level Density for Atomic Nuclei V.V. Voronov	.....	23
	Nuclear Collective States and Neutron Strength Functions Yu.V. Adamchuk et al.	.....	27
	On Radiation Width of Neutron Resonances D.F. Zaretskii and M.G. Urin	.....	32
	Particle-Hole Calculations for E1, E2 and M1-Resonances in Spherical Nuclei I.N. Borzov et al.	.....	36
	Analog Excitation of Neutron Resonances V.G. Gula et al.	.....	42
	On Total Neutron Width of Isobaric Analog Resonance A.S. Kurlyandskii and M.G. Urin	.....	48
	Fragmentation of Independent Particle States and Neutron Strength Function V.G. Solovev	.....	53
F	Parameterization of Optical Model in the Range of 10 keV and 20 MeV, Application to Spherical Nuclei $^{89}\text{Y}$ and $^{93}\text{Nb}$ Ch. Lagrange	.....	65
F	On a New Non-local Spherical Optical Model of "Folding" Type treated by a Matrix Method J. Salvy and M. Bonnet	.....	79
F	Calculation of Cross Sections for Production of Discrete $\gamma$ -Rays in Reaction $(n,n'\gamma)$ for Chromium and Nickel up to 10 MeV B. Duchemin	.....	98
F	Study on Pairing Correlations of $^{152}\text{Sm}$ in a Function of Deformation J. Decharge et al.	.....	107

Structure of Inlet States P.E. Nemirovskii and L.G. Manevich	.....	116
Isospin Effects in Neutron Measurement and Nuclear Fission G. Ya. Tertchni and E.L. Yadrovskii	.....	123
Equation for State of Neutron Matter in Single-Boson Exchange Model V.I. Reizlin and V.A. Filimonov	.....	128
Statistical Description of Photoneutron Spectra from Heavy Elements Yu. N. Shubin and V.S. Stavinskii	.....	133
On Energy Dependence of Neutron Cross Sections D.F. Davidenko and S.I. Drozdov	.....	138
<b>Section 4 Experimental Study on Interaction of Thermal and Resonance Neutrons with Nuclei</b>		
Neutron Radiative Cross Sections of $^{152}\text{Eu}$ Isotope for Thermal and Resonance Neutrons V.P. Vertebni et al.	.....	145
Total and Partial Neutron Cross Sections for Some Lanthanides and Fissionable Nuclei, Measurement by means of Scandium Filter V.P. Vertebni et al.	.....	151
Determination of Nuclear Optical Radius $R'$ and Calculation on Contribution of Levels with Negative Energy by Monte-Carlo Method V.P. Vertebni et al.	.....	156
Measurement of Total Cross Section on Radioactive Samples in Neutron Spectrometer with Narrow Beam V.F. Razbudei et al.	.....	161
Measurement of Cross Sections for Neutron Absorption in Nuclei by a Method for Determination of Neutron Leakage E.A. Pavlenko and N.L. Gnidak	.....	166
Measurement of Capture Cross Sections of Hafnium and Vanadium Isotopes for Thermal Neutrons E.A. Pavlenko and N.L. Gnidak	.....	171
Interaction of Filtered Neutrons with Nuclei, Thick Filter D.F. Zaretskii and V.K. Sirotkin	.....	175
Interaction of Filtered Neutrons with Nuclei, Thin Filter D.F. Zaretskii and V.K. Sirotkin	.....	180
On Reduction of Experimental Data on Total Cross Section for Interaction of Neutrons with Nuclei as a Function of Neutron Energy N.S. Lebedeva et al.	.....	185
Radiative Capture Cross Sections of Samarium and Europium Isotopes for Fast Neutrons B.D. Yurlov et al.	.....	190

	Radiative Capture Cross Sections of Au, Ta and In Isotopes for Fast Neutrons V.N. Kononov et al. ....	195
	Measurement of Neutron Absorption Cross Section for U-238, Transmission Method in a Spherical Geometry A.A. Vankov et al. ....	200
	Neutron Total Cross Sections and Resonance Parameters for $^{266}\text{Ra}$ , $^{181}\text{Ta}$ , $^{182}\text{Ta}$ and $^{147}\text{Pm}$ T.S. Belanova et al. ....	205
	Study of Resonance Parameters for $^{241}\text{Am}$ T.S. Belanova et al. ....	214
	Study of Resonance Parameters for $^{243}\text{Am}$ T.S. Belanova et al. ....	219
	Study of Resonance Parameters for $^{244}\text{Cm}$ , $^{245}\text{Cm}$ , $^{246}\text{Cm}$ and $^{248}\text{Cm}$ Isotopes T.A. Belanova et al. ....	224
	Spin Effect in Neutron Strength Function for Rare Earth Nuclei E.N. Karzhavina et al. ....	229
E	Valence and Doorway State Effects in Neutron Capture near Closed Shells J.W. Boldeman et al. ....	233
	Determination of Spin Channel Contribution in p-Resonances of Yttrium V.G. Nikolenko and G.S. Samosvat ....	249
E	Radiative Capture of Polarized Thermal Neutrons K. Abrahams et al. ....	254
	( $\gamma$ ,n) Reaction near Threshold and Neutron Radiative Capture A.I. Abramov ....	275
	On the Reaction of $^{55}\text{Mn}(\gamma, n)^{54}\text{Mn}$ near Threshold V. Ya. Kitaev et al. ....	280

Part 4

Section 4 Experimental Study on Interaction of Thermal and Resonance Neutrons with Nuclei (continued)

E	Total Cross Section Measurements on Fe, Ni and Ti from 10 keV to 1 MeV G.D. James et al.	..... 3
E	Precise Energy Determination for Three Peak Cross Sections in $^{23}\text{Na}$ and $^{27}\text{Al}$ and for the 250 keV Resonance in $^6\text{Li}$ G.D. James et al.	..... 24
	Measurement of Gamma-Rays from $^{173}\text{Yb}(n,\gamma)^{174}\text{Yb}$ Reaction for Resonance Neutrons L. Aldea et al.	..... 46
	Study of Low-Energy $\gamma$ -Rays in $^{147}\text{Sm}(n,\gamma)$ Reaction for Resonance Neutrons Yu.P. Popov et al.	..... 50
	Analysis of Secondary Gamma-Quanta, Emitted after Capture of Resonance Neutrons for $^{155}\text{Gd}$ and $^{157}\text{Gd}$ Nuclei L. Aldea et al.	..... 55
	$(n,\alpha)$ Reaction in Deformable and Transitional Nuclei N.P. Balabanov et al.	..... 60
	Strength Function for Primary Soft $\gamma$ -Transition near Bound Energy of Neutrons V.A. Vtyurin et al.	..... 65
	Spins of Neutron Resonance for $^{159}\text{Tb}$ from Experiment with Polarized Neutrons and Nuclei V.P. Alfimenkov et al.	..... 70
	Magnetic Moment of Compound-States for Terbium and Holmium V.P. Alfimenkov et al.	..... 75
	Grouping of Neutron Widths for Resonance of Heavy Nuclei P.E. Vorotnikov	..... 80
	Statistical Analysis of Resonance Parameters for Uranium-238 M.N. Nikolaev and L.P. Abagyan	..... 85
	Analysis of Distribution of Distance between Neutron Levels F.N. Belyaev and S.P. Borovlev	..... 90

F	High Resolution Measurements on Fission Cross Sections of $^{238}\text{U}$ and $^{239}\text{Pu}$ Relative to that of $^{235}\text{U}$ J. Blons and C. Mazur ....	24
F	Measurement on Fission Cross Section of $^{237}\text{Np}$ between 100 keV and 2 MeV S. Plattard et al. ....	34
E	A Measurement of the $^{238}\text{U}/^{235}\text{U}$ Fission Cross-Section Ratio M.S. Coates et al. ....	41
E	Measurement of the $^{239}\text{Pu}$ Fission Cross Section in the Energy Range from 1 keV to 1 MeV D.B. Gayther ....	49
	Measurement of Fission Cross Section of $^{235}\text{U}$ S.A. Biryusov et al. ....	55
	Ratio of Radiative Capture to Fission Cross Sections $^{239}\text{Pu}$ in the Neutron Energy Region of 0.2 ~ 30 keV A.A. Bergman et al. ....	61
	Measurement of Fission Cross Section of $^{235}\text{U}$ and $^{239}\text{Pu}$ for Neutrons with the Mean Energies of 2 and 24.3 keV C.D. Zhuravlev et al. ....	67
	Thermal Cross Sections and Resonance Integrals for Capture and Fission on $^{241}\text{Am}$ , $^{243}\text{Am}$ , $^{249}\text{Bk}$ and $^{249}\text{Cf}$ Isotopes V.D. Gavrillov et al. ....	71
	Fission Cross Section of $^{235}\text{U}$ in the Neutron Energy Range of 0.01 ~ 10 keV G.A. Mostovaya et al. ....	76
	Measurement on Energy Dependence of $\eta$ for $^{235}\text{U}$ in the Region of 0.02 ~ 1 eV ....	81

Interference Analysis of Fission Cross Section (Two-Level Approximation) S.A. Toshkov and N.B. Yaneva	..... 87
Fission of Oriented Nuclei for Fast Neutrons N.N. Gonin et al.	..... 92
Absolute Yields of Light Particles in Fission of $^{233}\text{U}$ , $^{235}\text{U}$ and $^{239}\text{Pu}$ for Thermal Neutrons, and Spontaneous Fission of $^{252}\text{Cf}$ I.A. Kondurov et al.	..... 97
On Structure in Low-Energy Part of Spectra of $\alpha$ -Particles from Ternary Fission V.T. Grachev et al.	..... 107
On Feasibilities of Study on Two-Step Reaction of $^{235}_{92}\text{U}(n,\gamma f)$ A.A. Bogdzely et al.	..... 111
On Probabilities of Atomic Shell Ionization of Fissionable Atom by Electromagnetic Field of Heated Nucleus L.A. Popeko et al.	..... 116
Comparison of Prompt $\gamma$ -Radiation Spectra from Thermal Neutron Fission of $^{233}\text{U}$ , $^{235}\text{U}$ , $^{238}\text{Pu}$ and $^{239}\text{Pu}$ and Spontaneous Fission of $^{252}\text{Cf}$ E.H. Teterev et al.	..... 121
Effective Moments of Inertia for Preactinoid Nuclei M.G. Itkis et al.	..... 127
Asymmetry of Fission for Bismuth by $\alpha$ -Particles Yu.A. Nemilov et al.	..... 131
Channel Analysis of Fission Process in $^{239}\text{Pu}(n,f)$ -, $^{239}\text{Pu}(d,pf)$ -, and $^{238}\text{Pu}(t,pf)$ Reactions V.E. Marshalkin and V.M. Povyshev	..... 135
Fission of $^{235}\text{U}$ , $^{239}\text{Np}$ and $^{245}\text{Am}$ Nuclei in the $(t,pf)$ Reaction on $^{233}\text{I}$ , $^{237}\text{Np}$ and $^{243}\text{Am}$ Isotopes M.F. Andreev et al.	..... 140
Photofission of $^{232}\text{Th}$ , $^{238}\text{U}$ , $^{235}\text{U}$ and $^{239}\text{Pu}$ near Fission Threshold T. Dragnev et al.	..... 146
 Section 7. Experimental Methods in Neutron Physics	
Study on Pulsed Point Source of Monoenergetic Neutrons with Nanosecond Duration L.V. Dubovoi et al.	..... 152
Determination of Parameters for Supercompressed Materials by Products of Thermonuclear Reaction L.V. Dubovoi et al.	..... 157
Neutron Generator with Laser Ion Source O.B. Ananyin et al.	..... 161

	Target for Production of Maximum Neutron Yield Under Spherical Irradiations of Light Laser E.G. Gamalii et al.	166
E	The Mass Separator Lohengrin and Some Experimental Work M. Asghar et al.	170
	Multilayer Mirror Polarizer G.M. Drabkin et al.	196
	Neutron Guide Polarizer based on Multilayer Mirrors G.M. Drabkin et al.	202
	Study on Long-Wave Neutron Monochromator of Florin-Phlogopite F.M. Zelenyuk and S.B. Stepanov	207
	Fast Adiabatic Spin Flipper for Neutron Yu. V. Taran	211
	Pulsed Beam Electrostatic Accelerator of IAE V.P. Afanasyev et al.	216
	Neutron Time-of-Flight Spectrometer with Synchrocyclotron <del>ЛМРЭ</del> N.K. Abrostmov et al.	221
	Isomeric Neutron Accelerator Yu.V. Peteov	227
F	Production of Monochromatic Neutrons with Use of Gas Targets for Deuterium and Tritium G. Haouat et al.	236
	On Time Resolution of Neutron Spectrometer with Use of $^6\text{Li}(\text{Eu})$ Crystal M.V. Blinov and V.A. Vitenko	252
	Accuracy of Calculations for Neutron Detection Efficiency L.V. Chulkov	257
	Measurement on Efficiency of Neutron Detectors in Interval Energy of $1 \sim 10$ MeV N.V. Kornilov and V.I. Plyaskin	261
	Measurement on Efficiency of Neutron Detector V.A. Vukolov et al.	265
	Apparatus for Study of Correlations among Angle, Velocity and Energy for Fission Fragments V.E. Shashmin et al.	271
	Calculation of Correction in a Case of Application for Method of Associated Particles N.V. Kornilov	276
	Wide-Range Detector for Pulsed Neutron Emission V.T. Baranov et al.	231

4 $\pi$ -Neutron Time-of-Flight Spectrometer Yu.A. Vasilyev et al.	.....	286
Multifilament Spark Detector with a Small Dead Time T. Bakalov et al.	.....	290
Automation System for Control of Experiments R.G. Ofengen	.....	301
Some Problems for Automation of Experimental Information Processing in Reactor VVR-M V.S. Babkov et al.	.....	311
Facilities for Measurement and Handling of Data in Neutron Physics Researches V.I. Kadashevich et al.	.....	314
Electronic Apparatus for Measurements of Fast Neutron Energies O.M. Andreev et al.	.....	319
Wide-Range Digital Apparatus for Study on Neutron Reaction by Production of Short-Lived Isotopes ( $T_{1/2} \sim 10^{-3}$ sec) E.K. Bonyukkin et al.	.....	326
Variation for Pulsed Neutron Method as applied to Investigation of Two-Zone System A.V. Antonov et al.	.....	333
On Possibility for Application of Some New Neutronic Methods to Geophysics and Instrument Manufacture A.V. Antonov et al.	.....	339
Instrument for Determination of Parameters for Fissionable Materials and Total Fluxes of Neutrons Yu.A. Vorobev et al.	.....	334
Selection of Parameters for Fast Neutrons at Slowing Down in Anisotropic Medium V.Ya. Shpitser	.....	351
Detectors for Neutron Flux in Low Intensity I.V. Volobuev et al.	.....	356
Spectrometer for e- $\gamma$ Coincidence L.S. Popeko et al.	.....	361
Fissionable Material Targets for Measurement of Nuclear Physical Constants P.I. Fedotov	.....	366
Time-of-Flight Spectrometer for Study of Neutron Scattering at Energy of 14 MeV L.G. Drozdetskii and B.S. Kovrigin	.....	374
