

CALL FOR PAPERS

Global 2009

Paris, France - September 6-11, 2009
(Abstracts due December 15, 2008)

GLOBAL 2009 will be the ninth bi-annual scientific world meeting on the Nuclear Fuel Cycle (NFC) that started in 1993 in Seattle. This meeting has established itself as a dedicated international forum for experts, to provide an overall review of the status and new trends of research applications and policies related to the fuel cycle.

GLOBAL 2009 to be held in **Paris** will be the international event not to be missed in 2009 for those who are involved in current nuclear programs and who are preparing the basis for the coming growth of nuclear power worldwide. The **Global 2009 Conference & Exhibition** will be held in coordination with the **TOP FUEL 2009 Meeting**.

Abstracts are due by **December 15th**: Authors should submit a one-page 400 word abstract (text only)

to <http://www.inspi.ufl.edu/global2009/papers/submission.html>

For complete information about the conference, please visit www.sfen.fr

We look forward to your participation at Global 2009 in Paris!
